EXPERIENCE

Full Stack Javascript Developer
Myend, Amsterdam

DECEMBER 2020 - JULY 2022

- Built full sections of the Myend web app, implementing both the front-end and back-end functionality. Examples of this are the Memory Lane and the Proof of Life sections at app.myend.com.
- Developed the system in which the Myend web app can be displayed in several languages. Built an external web app to facilitate translating, exporting and including of text on the Myend web app.
- Was able, as a part of a small team, to be an active contributor in the design and decision making of the Myend web app, offering suggestions and giving and receiving feedback from my teammates.

EDUCATION

42 Barcelona, Barcelona

Computer science training

NOVEMBER 2022 - PRESENT

</salt>, Ámsterdam

Full Stack JavaScript Bootcamp

MAY 2020 - AUGUST 2020

Intensive three month training program for full stack web development with a focus on TDD and mob programming. Developed myself as a team member and learned to work with technologies like vanilla Javascript, jQuery, Node.js, Express, React, postgreSQL, mongoDB, Git version control, etc.
